

# As We Fall

## League of Legends

Tell me where do I go  
Tell me where do I take us  
Your heart is starting to slow  
May the water be safer  
As I dive in Blood stains washing underneath the waves  
(As we fall, as we fall)  
I'll be reaching out to keep you safe  
(as we fall, as we fall, as we fall)  
I can't hold on much longer  
We're drifting down to the other side  
Tried to pull us under  
Keep holding out for the other side Tell me where do I go  
Tell me where do I take us  
Tell me where do I go  
Tell me where do I take us Your heart is starting to slow  
May the water be safer  
As I dive in Your heart is starting to slow  
May the water be safer  
As we fall  
I can't hold on much longer  
We're drifting down to the other side  
Tried to pull us under  
Keep holding out for the other side
