

Burned

Grace VanderWaal

You tell me that I'm crazy
Doing this alone
You don't need to save me
Oh, how I've grown I am capable of everything you can see
But now I want to change Just blow out the candles
Oh, little boy, when will you learn?
You don't play with fire
Unless you wanna get burned
Wanna get burned
Just blow out the candles
Oh, how the tables they have turned
You don't play with fire
Unless you wanna get burned
You wanna get burned
Wanna get burned
Wanna-wanna get burned (burned)
Something's just so crazy
Things you'll never know
There's always that one "maybe"
That keeps stringing you along Mm, 'cause I am capable of everything you can see
But now I want to change Just blow out the candles
Oh, little boy, when will you learn?
You don't play with fire
Unless you wanna get burned
Wanna get burned
Blow out the candles
Oh, how the tables they have turned
You don't play with fire
Unless you wanna get burned
Wanna get burned
What is that, that I see?
Floating right in front of me
Lock the door, try to leave
But now it's clear to me You didn't blow out the candles
Oh, little boy, you never learn
You don't play with fire
But you're already burned
You're already burned
Blow out the candles
Oh, little boy, you've never learned
You don't play with fire
But you're already burned

You're already burnedWanna get burned

Wanna-wanna get burned (burned)

Wanna get burned

Wanna-wanna get burned (burned)

Wanna get burned

Wanna-wanna get burned (burned)
