

Awful Things

Lil Peep

Bother me, tell me awful things
You know I love it when you do that
Helps me get through this without you
Bother me, tell me awful things
You know I love it when you do that
Helps me get through this without you
Bother me, tell me awful things
You know I love it when you move that on me
Love it when you do that on me
You lack attention, I find it obvious
She makes it obvious for me
She feels the tension
It's just the two of us, it's just the two of us tonight
Burn me down 'til I'm nothing but memories
I get it, girl (I get it, girl)
I get it, girl
Burn me down 'til I'm nothing but memories
I get it, girl (I get it, girl)
I'm not the one
Bother me, tell me awful things
You know I love it when you do that
Helps me get through this without you
Bother me, tell me awful things
You know I love it when you move that on me
Love it when you do that on me
Don't you turn your back on me
Let your teardrops fall on me
Speeding away, the city in the rear view
Heart racing whenever I'm near you
Goth boy jumping on stage
Carry me away, carry me away
Burn me down 'til there's nothing left
I will scream your name with my last breath
Take off your favorite dress
Lay your head on my chest
Diamonds, rubys and gems
You can have all of them
Bother me, tell me awful things
You know I love it when you do that
Helps me get through this without you
Bother me, tell me awful things
You know I love it when you move that on me
Love it when you do that on me
