

Holler at Ya Boy

Attila

Save your breath for the better things. tell it to someone who cares. I
Didn't pay money to hear you complain. I just came to get my buzz on. I

Just wanna party all night. so who will join me at the nearest bar? I
Don't believe any lyrics people seem to write these days. they're singing

Just to make that paycheck. their cause is fake. their cause is fake.

Their cause is fake I don't believe it. so grab a blunt and come on. yeah

Yeah yeah I didn't say I wanna party for nothing. so where the party at?

Holer at ya boy! its just another day in the life. I never question
Where I've been or where I came from. I just came to get down . sipping a
Cup of crown with two blunts in my back pocket. yeah. so come with me.

Did you know good times is my middle name? so lets spark a blunt and
Get a round of shots. now you can see that we get down. that's whats up.

Were are caught up in a world of sin. so will you sink. or will you

Swim. that is the question my friend. this world is tough and its a

Fight to the top I think were already there get up. or get out. you

Will never make it here. holler at ya boy. let me see you move.
