

# Dripped Out (feat. Luh Kel)

## Quando Rondo

Tuned up  
Yeah, yeah, Neeko, you made that motherfuckin' beat?  
Ah nah, you ain't make that motherfucker  
Oh Lord, Jetson made another one Put her in silk ever since she dripped out  
Put blue diamonds on her neck just like she Crippled out  
And I know your friends be in our business, tell 'em sit down  
They hate the fact that I'm with you, they know they missed out  
They hate the fact they missed out, they know you be dripped out  
Take you out your mama home, then move you to a big house  
They hate the fact you dripped out, they know they just missed out  
Your friends be in our business, tell them hoes they need to sit down  
It's 9 a.m., she call my phone, tryna see who's staying with me  
I pull up drop-top,  
Grippin' on the chrome, it ain't no playing with me  
Baby girl, I'm gone, on, on, I might get in trouble this week  
But when I come back, get you new Chanel, that new double C  
I see Miami, you and me, on South Beach in the breeze  
Two-door coupe, that Mercedes  
Get on the cruise, then go out east  
Baby, I need your love like codeine  
Addicted to you, no dope fiend  
But you so marvelous, I'm your king, yeah, yeah  
Johnny Dang your neck and wrist  
Plain jane, we don't really do this  
Switching lanes, double R my bitch, yeah  
Wait, they really hate the fact you made it  
Keep a roll on 'em, stay focused, don't let 'em take it  
Put her in silk ever since she dripped out  
Put blue diamonds on her neck just like she Crippled out  
And I know your friends be in our business, tell 'em sit down  
They hate the fact that I'm with you, they know they missed out  
They hate the fact they missed out, they know you be dripped out  
Take you out your mama home, then move you to a big house  
They hate the fact you dripped out, they know they just missed out  
Your friends be in our business, tell them hoes they need to sit down I'm making sure that you  
dripped out, that's only if you mine  
I keep you by my side, I love it when we spendin' time  
And girl, when you around, I'm loving all your perfect vibes  
Would like to see love when I eat it, when I'm deep inside  
Take a trip out coast to coast  
High in the sky, we don't even gotta float  
On top of me, you gon' ride like a boat

Love when you trip, girl, you doing the most, yeah  
Whenever you need me, you know you got me by your side  
And baby girl,  
You number one 'cause you're the only one of your whole kind  
And that's what I like, like  
Let me pull up, get a bite, bite  
Never running from the pipe, pipe  
Drip, drip, fly, fly, yeah  
You the only one that I want and love  
Stay by my side, don't know what you're running from Put her in silk ever since she dripped out  
Put blue diamonds on her neck just like she Crippled out  
And I know your friends be in our business, tell 'em sit down  
They hate the fact that I'm with you, they know they missed out  
They hate the fact they missed out, they know you be dripped out  
Take you out your mama home, then move you to a big house  
They hate the fact you dripped out, they know they just missed out  
Your friends be in our business, tell them hoes they need to sit down
