

Galaxy (Chris Young Remix)

[Dannii Minogue](#)

Oooh Oooh Oooh[Verse 1]

Lonesome light years

Tethered tears

Pull me near

And I will have no fear

And in the darkness

I fall in love

And in your arms

I'm safe from harm

[Chorus]

Your current sets me free

I'm feeling your electricity

You are my galaxy

A star struck heart beat

I'm bound by your gravity

You are my galaxy

You are my galaxy[Verse 2]

Powers up

And we are one

Can you feel the love

And the midnight sun

Feel no g force

Weightless our

Web is spun

Thy will be done

[Chorus]

Your current sets me free

I'm feeling your electricity

You are my galaxy

A star struck heart beat

I'm bound by your gravity

You are my galaxy

You are my galaxy[Verse 3]

In the night sky

You and I

Buried in dust

Just us

Pulling me in

Your solar system

Clusters of lust

Just us

And the universe

Alters its course
We make what matters disperse disperse[Bridge]
In the night sky
You and I
You and I
You and I[Chorus]
Your current sets me free
I'm feeling your electricity
You are my galaxy
A star struck heart beat
I'm bound by your gravity
You are my galaxy
You are my galaxy[Outro]
Aaah
I'm feeling your electricity
You are my galaxy
A star struck heart beat
I'm bound by your gravity
You are my galaxy
You are my galaxy
Aaah
Oooh Oooh
