

Happy Hours (feat. Sigrid Bernson)

John De Sohn

I wanna (?)
I wanna (?)
We living by the (?) at all
I'm (?) between (?)
But gravity won't take my control
I'm running out into the wild
We run against destination or goal
All I need is clarity
But you don't seem to get me at all
While wait for a happy ending
Well all you need is the happy hours
All we need is the happy hours
While wait for a happy ending
Well all you need is the happy hours
All we need is the happy hours
All we need is the happy hoursAll we need is the happy hours
I'm holding on the melody
The flaming loud inside of our soul
Don't (?) touch the gold
Learn to walk before you can grow
I'm running out into the wild
We run against destination or goal
All I need is clarity
But you don't seem to get me at all
While wait for a happy ending
Well all you need is the happy hours
All we need is the happy hours
While wait for a happy ending
Well all you need is the happy hours
All we need is the happy hours
It's all that we need now
It's all that we need now
All we need is the happy hoursAll we need is the happy hoursAll we need is the happy hours
