

No Cut

Snow Tha Product

You know who's the dopest and up and coming but no one's paying attention to her?

Who?

now?

Nah

Snow is dope

I listened to a couple of her joints, it's not for me

No, Snow is dope

can't get jiggy with it

Snow Tha Product has been putting it in for a long time now man

But Snow's dope though

Ok

And Snow Tha Product, I see she was also nominated, Charlemagne you really like Snow

I like Snow! How Snow didn't make it?

She-she did well with the people' champ.

Definitely was up there,

but just didn't make the cut of- we already had 12.

As it is its really hard to fit that many people on one cover already And have everyone get seen

We believed in the R&B element and didn't want to take anything away from it

Stay Woke. Lets talk to our guest.

I have been a fan of this young lady for a long time, make some noise for Snow. Snow Tha

Product

Snow!

Snow what are you a product of?

Am I allowed to curse or no?

Yeah!

This fucking music industry

Why what happened?

It's fucking bullshit

I am no longer competing with these bitches its a mockery

Fuck a lane we're not even in the same race

Couldn't quite put my fucking finger on what's stopping me

Then I lapped them so bad they think we in the same place

I've been moving

You don't want no friction like Newton

Shit about to snowball and it ain't gone stop

Y'all gone lose it

This is my court I'm well suited

Ain't no jewelry/jury left hung

Bitch you taking that loss

Look, I've been doing me and I've been stacking up

Downplaying what I'm earning now I'm laughing up

Bank statements doing numbers, bitch so now shut up

Watch the lil humble struggle rapper coming up
Cuz all these blogs got y'all broads gassed up
All y'all got no bars, y'all washed up
No tide, no softener
My rhymes are hot stuff
Snow White just rocked up
Y'all lies and all cut

And every time they get represented its usually by a female thats trying to sell you her rhymes with sex and instead of spitting her shit up. So I'm gonna bring my lil' homegirl up here. It's my little homegirl, Snow Tha Product. Tu quieres hablar le al la gente? You wanna spit a lil' verse for them? Aight...I been watching bitches come up off of shit they ain't write themselves

Cuz they done sold what I still have but mine is not for sale
The game's a marathon, ya bitch, and only time will tell
Y'all cosign, fly by nights and then watch them fail
I never been the type to be impressed with none this regular shit
I think the hype around a rapper is a hell of a trip
I think the eyes tell it all and that its so evident, that I'm just so obliged to announced that this
game is television

And all y'all fraudulent
That's why you broads in this, salty as condiments
You bothered that I'm back and all it just like I thought it would
Cuz some of y'all went crazy and some of y'all fell off
Some of y'all ain't shit and some of y'all still fraud
I could've called it when all these fucking labels got involved
I guess they thought I was like y'all fucking thirty for a dollar
Fuck that

Snow don't fall for no bullshit
I kept my publishing and sold Woke and the movement
Get no cutTech N9ne: You know what I'm saying I mess with lyricists, man. I got Snow Tha Product on the new album on a song called "So Dope". People want to see her, y'know, and I hope her label, I hope they put her album out, because we put out our people. If I would have gotten at her the two years my partner, Travis was like "You gotta check out Snow". I was like "Yeah yeah yeah ok". And I was so busy that I never did and when I did I was like "Woah" and

it was too lateCuz all these blogs got y'all broads gassed up
We're not even in the same race
Game's a marathon, ya bitch, and only time will tell
Lapped them so many times they think we're in the same place
I've been moving
Hype around a rapper is a hell of a trip
All y'all fraudulent
I been stacking up
Some of y'all crazy and some of y'all fell off
The lil humble struggle rapper coming up
We're not even in the same race
Snow don't fall for bullshit(No Cut)
