

# Prelude 3.0

## Slipknot

I don't know why...  
...I never told you  
And I don't know why...  
...I never tried  
When we shed these bitter skins again  
All the reasons come to life  
But now it's over  
Now it's over  
Now it's over  
Now it's over  
I don't know why you never asked me  
And I don't know why you never cared  
When we hide these little sins again (sins again)  
All the reasons have to die...  
But now it's over  
Now it's over  
Now it's over  
Now it's over  
Now it's over  
Now it's over  
Now it's over  
Now it's over  
No!
