

Wish You Were Here

Skepta

[Intro]

How many times? (Wow, wow, wow)

Go on then (Wow, wow, wow)

(Brr, brr)

Yeah[Chorus]

You said you were my brother but you weren't there

Came to squash beef but you weren't there

Came to your party, you weren't there

Came to your house and you weren't there

Came a long way from trappin' in the bando

When I was on the road, fam, you weren't there

Look up in the sky, that's me goin' clear

All that talk about clash, that's air

Said you were my brother but you weren't there

Came to squash beef but you weren't there

Came to your party, you weren't there

Came to your house and you weren't there

Came a long way from trappin' in the bando

When I was on the road, fam, you weren't there

Look up in the sky, that's me goin' clear

All that talk about clash, that's air

[Verse 1]

Yeah, please don't talk about war

Man, I got no heart, show you about war

Lookin' in your eyes, I can see you're not sure

How you come to the block when you know I'm on tour?

Verbalist, you love chattin' online

Yeah, you went jail, tell man what for

Pussyole ting, can't celebrate that

Stop tryna glorify wasteman things

Big business when my telephone rings

Old school beef, no, I ain't got time

Old school friends know I ain't got time

Life goes on, man, I can't rewind

Yeah, I praise the Lord, and I shine

Suck whose mum, can't be chattin' 'bout mine

Full control, can't waste my energy

Them MCs are just too bad mind

[Chorus]

Said you were my brother but you weren't there

Came to squash beef but you weren't there

Came to your party, you weren't there

Came to your house and you weren't there
Came a long way from trappin' in the bando
When I was on the road, fam, you weren't there
Look up in the sky, that's me goin' clear
All that talk about clash, that's air[Interlude]

Yeah, just admit it

Nobody did it like I did it

Produced my own beats, I think of my own lyrics

Could have kept it all to myself but I split it

Man are so ungrateful, man are so wicked

When I'm on stage, move your hand from the mic

Guess I'ma give it when I'm finished

Man said he wants to talk, I'm like, Is it?

DM, 'cause I'm not givin' you my digits (Mmm)

And it's likely I might've ignored it

'Cause by now I think the talkin' is borin'

More time I leave a bullshit message on read

Just to make a nigga see that I saw it

All the chit chatter get a nigga nowhere

Diss big smoke, now you're gettin' nightmares

All I ever hear is this year's my year

But you never turn up, I know you don't really care

But Jam was there, Lay was there

Em was there, Donner was there

Ayo was there, Sister was there (Yeah)

Dad was there (Yeah), Lash was there (Yeah)

Decks was there, Stage was there (Yeah)

Mike was there, Dex was there

Even Ghetts was there

That's Movement

Boy Better Know, my G, I really wish you were here[Chorus]

Said you were my brother but you weren't there

Came to squash beef but you weren't there

Came to your party, you weren't there

Came to your house and you weren't there

Came a long way from trappin' in the bando

When I was on the road, fam, you weren't there

Look up in the sky, that's me goin' clear

All that talk about clash, that's air

Said you were my brother but you weren't there

Came to squash beef but you weren't there

Came to your party, you weren't there

Came to your house and you weren't there

Came a long way from trappin' in the bando

When I was on the road, fam, you weren't there

Look up in the sky, that's me goin' clear
All that talk about clash, that's air
