

# Doubt Me Now

Cody Johnson

People like you got nothin' better to do  
Than throw rocks at things that shine  
Well, you oughta be chasin' your own dreams  
'Stead of shootin' holes in mine  
Then again, keep it comin', keep your big mouth runnin'  
Keep kickin' me while I'm down  
Hop on the bandwagon, man, while you can  
Better doubt me now Keep buildin' that chip up on my shoulder  
Keep feedin' that monkey on my back  
I can feel your hot air blowin' in colder  
Stokin' this fire up under my ass  
Got me livin' for the day, gonna see my face  
Big as life last laughin' out loud  
Lovin' all you haters  
Beggin' you to doubt me now  
Like a walk-on quarterback, a wanna be Cadillac  
A backup to a third string  
I'm outside the box, ain't got no shot  
At the bull's eye or the brass ring  
Yeah, I've heard it all, betcha thought I'd crawl  
Under a rock and never wanna come out  
But I'll never let you give me a reason to  
To doubt me now So keep buildin' that chip up on my shoulder  
Keep feedin' that monkey on my back  
I can feel your hot air blowin' in colder  
Stokin' this fire up under my ass  
Got me livin' for the day, gonna see my face  
Big as life last laughin' out loud  
Lovin' all you haters  
Beggin' you to doubt me now  
C'mon!  
Yeah, keep buildin' that chip up on my shoulder  
Keep feedin' that monkey on my back  
I can feel your hot air blowin' in colder  
Stokin' this fire up under my ass  
Got me livin' for the day, gonna see my face  
Big as life, last laughin' out loud  
Lovin' all you haters  
Beggin' you to doubt me now  
Yeah, I love all you haters  
Come on and doubt me now  
Try and doubt me now

Hop on the bandwagon
