

# Ecstasy (feat. Hurts)

Calvin Harris

Fall back and touch the night  
and reach for the blinding light  
'Cause everybody says that we're too young to see  
We know that we're brave enough to be  
In the state of ecstasy  
In the place we're meant to be  
In the state of ecstasy,  
there is only you and me  
Break through from the other side  
and lead me to paradise  
'Cause nothing but love can take us away from here  
Ever time I close my eyes, we disappear  
In the state of ecstasy  
In the place we're meant to be  
In the state of ecstasy,  
there is only you and me  
Uh uuh (eh eh)  
Uh uuh (eh eh)  
Uh uuh (eh eh)  
Uh uuh (eh eh)  
In the state of ecstasy  
In the place we're meant to be  
In the state of ecstasy,  
there is only you and me
