

# Beware of Us (feat. Strong Arm Steady)

## Xzibit

Yeah, Strong Arm Steady  
One gang, four guns  
How the West was won, let's go Jump if you really want it  
You'll catch one in yo' stomach  
When you see the Steady comin'  
Y'all better beware of us Loudmouths is always talkin'  
When we come they keep on walkin'  
But my dogs ain't only barkin'  
Y'all better beware of us Jump if you really want it  
You'll catch one in yo' stomach  
When you see the Steady comin'  
Y'all better beware of us  
Loudmouths is always talkin'  
When we come they keep on walkin'  
But my dogs ain't only barkin'  
Y'all better beware of us I'm eatin' chicken wings, mm, it's like chicken feed  
Mm, I'm at the feed house smokin' all this chicken's weed  
Huh, you're hardly hard, this sucker's soft as volleyball  
Cold Chillin' like my name was, Big Daddy, Marley Marl You're not a star at all, no, you're just  
a sidekick, yeah  
Runnin' the outside lickin' shit and ridin' dicks  
Real niggaz start cliques, start shit we spark clips  
The mac'll make your door lift and leave me with a sore wrist You should be impressed, yeah,  
it's like my first impression  
I pull representer, exposition in a session  
I'm in the Expedition, expose a dark dimension  
Your girl used to suck dick during detention  
You got dumped, she came up by spittin'  
Out nuts of every homey comin' home from prison  
Yeah, the fake chicks get dick the Ferragamo fake fits  
I keep they drawers drenched, no drawers, fake tits Jump if you really want it  
You'll catch one in yo' stomach  
When you see the Steady comin'  
Y'all better beware of us Loudmouths is always talkin'  
When we come they keep on walkin'  
But my dogs ain't only barkin'  
Y'all better beware of us This the last call, total recall, my pimpin' flowin' like Niagara Falls  
So you can Phil Da Agony y'all  
Yeah, you get beat to the punch, rap monsters eat you for lunch  
And feed you to the beat that you want Fear keep knockin' fake fans sent to no one  
Fuck them niggaz run from me I don't owe 'em  
Why do things for free, you don't know 'em?

These niggaz'll load up the heat, they don't throw 'ems stay floatin' in my mind, I design 'em like  
Architects workin' online, I'm on the incline  
Lamp like the heavyweight champ, it took 3 months of trainin'  
While it's rainin' take your brain' through boot campFair facts, Nike Air Max, I'm back blunted  
Yeah, that them niggaz hear that and don't want it  
Triple trick niggaz get sick to they stomach  
Strong Arm Steady ready act like you want it, bitchJump if you really want it  
You'll catch one in yo' stomach  
When you see the Steady comin'  
Y'all better beware of usLoudmouths is always talkin'  
When we come they keep on walkin'  
But my dogs ain't only barkin'  
Y'all better beware of usEvery day above ground is a good day  
My wordplay only contain what the hood say  
Clack the black off a nigga make him see the light  
My overhand right'll violate your civil rightsWe get bars, big cars, cigars  
12 gauge salute to your face to face God  
Icon, marathon mack, where the bitches at?  
Raise it back, steady game, came with a gang of gatsI hit your pressure points, we jack the  
motherlode  
Expose your motives like a CSI episode  
Output maximum level, dig deep down in the dirt  
With diligence and dance with the devil, yeah'Cause you don't know me homey, I keep the  
banger on me  
It wasn't my aim, it came with the territory  
Feet planted firm in the turf, plant you six feet deep in the earth  
Gettin' slumped while the ammo dump, fuckerJump if you really want it  
You'll catch one in yo' stomach  
When you see the Steady comin'  
Y'all better beware of usLoudmouths is always talkin'  
When we come they keep on walkin'  
But my dogs ain't only barkin'  
Y'all better beware of us  
Beware of us
