

Whitney Houston

Jasper Sawyer

When I'm done with you
You'll be singing like Whitney Houston
I run to you, I'm your baby tonight
I wanna dance with somebody
How will you know that somebody's you Cause I'm saving my love
All of it too I'll always love you
You'll be singing like Whitney Houston
When I get through, you're the queen of the night
Where do the broken hearts go
You give good love you'll never know
it's true Got you signing like Whitney, singing like Whitney ooh
Come back here baby
Tell me your name
I'm going crazy
Crazy insane Sing to me like the great icon
You and me gonna spend some time You know
I've been saving my love
you know I'll always love you
Come here and lay
Next to me baby
I make you cry Sing to me like the great icon
You and me gonna spend some time
Feeling me but you wanna run
Needing me but you wanna run
Dance with me while the night is young
Saving My Love for ya
Straight out of heaven
I know you came
Pretty forever
One in the same Sing to me like the great icon
You and me gonna have some fun I know
You'll be holding it down
I know I'll always need this
Don't turn away
You are the reason
You got to stay Sing to me like the great icon
You and me gonna spend some time
Feeling me but you wanna run
Needing me but you wanna run
Dance with me while the night is young
Saving My Love for ya Singing like Whintey
Singing like Whitney

Singing like Whitney
Whitney Houston, Whitney Singing like Whintey
Singing like Whitney
Singing like Whitney
Whitney Houston, Whitney You rolling with me, you rolling with me
You rolling with me, you rolling with me yeah
You rolling me, you rolling me
You rolling with me, you rolling with me and Repeat to end
