

Unexpected Love

[Matt Wertz](#)

Babe, ya came out of nowhere
Now you're all I wanna do
I was fine flyin' solo
Now I can't stop thinkin' 'bout you
Sun shinin' in the mornin'
Midnight, you're the moon
You're the tide in the ocean
Pulling me right into you Even though I barely know your name
I've memorized every inch of your face
Now my heart will never beat the same
Tell me where you came from
There used to be an empty space
But everything's falling right in place
I know you're feelin' it too
Unexpected love
Can't believe it's true
Spent my whole world waitin'
Baby what you doing to me?
Unexpected love
Comin' into view
Didn't need no invitation
Baby, can't you hear me singing? You know I've never been lucky
I don't believe in chance
Somebody's smilin' on us
Blame it all on providence Never need to know any other name
Or memorize any other face
Our hearts, they beat the same
Tell me where you came from
Watcha doin', baby never stop
Yeah, I just wanna show you off
Tell the world how I feel
Unexpected love
Can't believe it's true
Spent my whole world waitin'
Baby what you doing to me
Unexpected love
Comin' into view
Didn't need no invitation
Baby, can't you hear me singing? Out of nowhere girl
Yeah you caught my eye
You were lookin' good
You were out of sight

So I said 'hello'
Yeah, and you said 'hi'
My knees went weak
And my tongue was tied
You're my favorite song
You're the sickest beat
You're my days ahead
You're my history
We don't gotta try
What we got's perfected
The best kind of love
Is unexpected Unexpected love
Can't believe it's true
Spent my whole world waitin'
Baby what you doing to me?
Unexpected love
Comin' into view
Didn't need no invitation
Baby, can't you hear me singing? Unexpected love
Can't believe it's true
Spent my whole world waitin'
Baby what you doing to me?
Unexpected love
Comin' into view
Didn't need no invitation
Baby, can't you hear me singing?
