

# Elastic

## Joey Purp

Yeah, yeah  
You remind me of butterfly doors  
Waist tight with a body like oh  
Hit you with the dougie, fresh pose  
Rick James, Superfreak, whatchu know about those, yeah  
How you came with it, damn  
Don't look, don't touch, don't play with it, damn yeah  
You don't gotta think like that  
How your man still think she ain't got it like that, yeah  
You could ride the wave if you wanna  
Spend a couple days, you could stay if you wanna  
Go an spend a night-night with her  
This a first class flight, don't fight with a nigga, yeah  
She a freak, she a dancer  
She gon' pop it on camera  
Throw it back if you nasty  
Bounce it like it's elastic  
Go ahead, break it down real low  
Go ahead, break it down real low  
Go ahead, break it down real low  
Stop playing with it  
Red light, green light, go You remind me of suicide doors  
Pretty face with a body like woah  
Hit it with the lava lamp on  
Catch a cab, pack a bag with your overnight clothes, yeah  
You could look good for a living  
Come chill for a while, what's good for a minute, yeah  
I'm just tryna get a taste 'fore I get it like this, like that  
This, like that  
Pretty Coke bottle frame hoes  
Patty cake, patty cake, anything goes  
Red light, green light, go  
Stop playing with it, go and break it down real low, uh  
She a freak, she a dancer  
She gon' pop it on camera  
Throw it back if you nasty  
Bounce it like it's elastic  
Go ahead, break it down real low  
Go ahead, break it down real low  
Go ahead, break it down real low  
Stop playing with it  
Red light, green light, go She a freak, she a dancer

She gon' pop it on camera  
Throw it back if you nasty  
Bounce it like it's elasticGo ahead, break it down real low  
Go ahead, break it down real low  
Go ahead, break it down real low  
Go ahead, break it down real lowShe a freak, she a dancer  
She gon' pop it on camera  
Throw it back if you nasty  
Bounce it like it's elasticGo ahead, break it down real low  
Go ahead, break it down real low  
Go ahead, break it down real lowStop playing with it  
Red light, green light
