

Time Alone With You (feat. Daniel Caesar)

Jacob Collier

Two, three, four, five If you wanna get sunshine (All night)
Walkin' on the rooftop
(Moonlight)
I'ma go get some
Time alone with you We could go dancing
(All night)
Soak up the disco
(Moonlight)
I dig it when I get that
Time alone with you
It's a beautiful Sunday morning
You see the sun up in the sky
It's gonna shine on you
Woo...
(When I'm alone with you) If you wanna get dirty
(All night)
Slippin' on the mudslide
(Moonlight)
We could cut the chit chat, gimme that
Time alone with you We could skip the the border
(All night)
Swim around the ocean
(Moonlight)
Man the octopus like when you give me that
Time alone with you
It's a beautiful Sunday evening
And when you see that little moon
You know I'm gonna let it shine on you
So open up the sky
And let the groove fall down
(When I'm alone with you)
Talkin' bout in the sunshine
(When I'm alone with you)
It's gonna shine on you All night, starbright
Shines down on me
It's all good, it's all right
You're all I see
At times, we may find
Our hearts grow heavy
It's all good, it's all right
You're all I need I know you wanna
Make it to nirvana

Lay all day in bed with me
And teach me how to love ya
(Yeah) You wanna be my partner
Well baby please believe me
Loving me ain't easy
I'ma need some time with you
You gon' need some time with me
Who knows what we're gonna do
All I hope is you don't leave All night, starbright
Shines down on me (I'ma need some time with you)
It's all good, it's all right
You're all I see (You gon' need some time with me)
At times, we may find
Our hearts grow heavy
It's all good, it's all right
You're all I need
All I hope is you don't leave (Who's that?) The most beautiful girl in the whole wide world
And she's mine, all mine
And I want her to know that my feelings show
I need time
(Gimme time alone with you) The most beautiful girl in the whole wide world
And she's mine, all mine
And I want her to know that my feelings show
I need time
(Gimme time alone with you) The most beautiful girl in the whole wide world
And she's mine, all mine
And I want her to know that my feelings show
I need time
(Gimme time alone with you) If you wanna get sunshine
(All night)
Walkin' on the rooftop
(Moonlight)
We could cut the chit chat
(All night)
I dig it when I get that
(Moonlight) I'ma go get some
Time alone with you
Time alone with you
Time alone with you
