

Sweet Darlin

Heart

Sweet darlin'
You saved me
I'm hummin'
From the lovin'
You gave me
You went so far
Where my feelings are
Breathing heaven fire
Sweet darlin'I know you
You stopped running
You knew I had something
To show you
The fever tamed
Like an angel came
Made music of my name
Sweet darlin'

Early that morning we knew I had to fly
Engines were screaming and still I was asking myself why
High on the wind I was feeling my sweet darlin' cry
My heart was breaking
I closed my eyes
Darlin'
Can you hear me
We can't be wrong
The night's song
Pulls you near me
Time just falls
Distance small
I feel you all
Sweet darlin'
