

Sway

Dan + Shay

C'mon outside
I got something to show you
The sun is sinkin'
And I'm dying to hold ya
There's a summertime southern breeze blowin'
In the air tonight
Turn on the stereo
And leave the door open
Just watch the moon
And the fireflies glow in the sky
Forget the day
And let it float away baby
Let's lose track of time
And just sway
Put your head on my shoulder
Let the music come and take us over
Let me pull you in a little bit closer
Baby close your eyes
Why don't we just
Stay right here in the moment
I wanna feel ya movin' nice and slow yeah
When there's nothin' words can say
Let's dance the night away
And just sway We don't need a DJ or a dance floor
So leave your high heels there by the back door
'tween you and me we got all that we need
So let me hold ya tight from left to right baby
We can sway
Put your head on my shoulder
Let the music come and take us over
Let me pull you in a little bit closer
Baby close your eyes
Why don't we just
Stay right here in the moment
I wanna feel ya movin' nice and slow yeah
When there's nothin' words can say
Let's dance the night away
And just sway, yeah
Just sway, yeah Your hands on my hips
Your lips on my lips
Kissin' all the worries away
Losin' ourselves

Ain't nobody else around here to get in the waySwayWe can just sway
Put your head on my shoulder
Let the music come and take us over
Let me pull you in a little bit closer
Baby close your eyes
Why don't we just
Stay right here in the moment
I wanna feel ya movin' nice and slow yeah
When there's nothin' words can say
Let's dance the night away
We can just sway, yeah
we can just sway, yeahCome on outside
I got somethin' to show ya
The sun is sinkin'
And I'm dyin' to hold yaSway
