

# Aqualung

## Morcheeba

Battle cries  
We make a swift retreat  
Paradise, it don't come cheap  
Square up to fight  
Like dynamite The flight is young  
We're getting deep  
without an aqualung  
Our will is strong  
We've got to work out where we're  
going wrong Buttercup  
I think we missed our turn  
Back it up  
You think I'd learn  
Your gelignite  
Sets truth alight  
The flight is young  
We're getting deep  
without an aqualung  
Our time is long  
We've got to find out  
where we're coming from  
Square up to the fight  
Like dynamite The flight is young  
We're getting deep  
without an aqualung  
Our will is strong  
We've got to work out where we're  
going wrong  
Light years from here  
We're going to burn up  
in the atmosphere  
It's crystal clear  
We're coming swinging  
on a chandelier
