

I'll Show You Love

Usher

I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love Now come with me to my hideaway
That's where you'll find me night and day
A place where we can get away
No one to stop us when we play Give you everything you need
Even get down on my knees
Just as long as you believe
Be with me and you'll succeed
I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love Now you can put your trust in me
Good lovin' will be guaranteed
As time goes by you'll come to see
Then you don't need no one but me, yeah Give you everything you need
Even get down on my knees, whoa
Just as long as you believe, yeah
Be with me and you'll succeed I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love
You'll never ever find
A love like mine, yeah
And I gotta be
With you all the time I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love I'll show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love I'll show you love, more love, baby

It's all about the love I have in me
So baby, let me show you love, more love, baby
It's all about the love I have in me
So baby, let me show you love
