

Can I Call You

Marques Houston

[Verse 1:]

Girl I must

Admit that I

Seen some fine ones in my time

But if you dare too

What seems so natural to you

The way you flex

The way you dress

Says that you give love the best

Wont stop

Til I get

Get to find out for myself[Hook:]

No one smiles the way that you do

It would be nice if you were mine

But lets not rush into

That way we don't lose it

What I'm trying to say is

If its fine

Can I call you tonight

[Chorus]

Can I call you?

Would it be cool

If I call you?

To get to know you

Can I call you?

Would it be cool

If I call you

To get to know you

Can I call you?

Would it be cool

If I call you

To get to know you

I'm going home so if you have the time

Can I call you tonight?

To get to know you

I'm going home so if you have the time

Can I call you tonight

[Verse 2:]

Now I don't usually fall in love

But girl you making me think twice

You're so feminine

And I'm so genuinely want to get into you

You can be my homey
No one smiles the way that you do (the way the way you do)
It would be nice if you were mine
But lets not rush into
That way we don't lose it
What I'm trying to say is
If its fine
Can I call you tonight[Chorus]
Can I call you?
Would it be cool
If I call you?
To get to know you
Can I call you?
Would it be cool
If I call you
To get to know you
Can I call you?
Would it be cool
If I call you
To get to know you
I'm going home so if you have the time
Can I call you tonight?
To get to know you
I'm going home so if you have the time
Can I call you tonight[Hook:]
No one smiles the way that you do
It would be nice if you were mine
But lets not rush into
That way we don't lose it
What I'm trying to say is
If its fine
Can I call you tonight?[Bridge:]
Can I call you tonight?
And say that you are mines
If we hang out sometimes
Say it would be already
We be together
Together, together in life
I'm going come so if you have time
Can I call you[Chorus]
Can I call you?
Would it be cool
If I call you?
To get to know you
Can I call you?
Would it be cool
If I call you
To get to know you
Can I call you?

Would it be cool
If I call you
To get to know you
I'm going home so if you have the time
Can I call you tonight?
To get to know you
I'm going home so if you have the time
Can I call you tonight
