

Foreplay (feat. Chris Brown)

Tank

Diners on the table,
and I wanna do something nice
and I'm hoping your able to be ready for the show tonight
So go ahead and meet up, Cuz' I wanna eat up
all this energy that your giving me
But I just cant wait to take you down.
C'mon just hold on a little more.
I done got your nails done, I done got your hair done.
Its about you pretty lady.
I'm so glad I'm with you tonight
Here's what we gon' do tonight.

Foreplay

Ain't nothing to think about girl your so incredible
And when we foreplay
Imma' try to press your buttons
Now, Let me undress them buttons for you girl.
It's your day, We can do whatever have it
Your way I hope your ready for this ride so
Hold on uh on girl.
Know your body sensitive so when we kiss just
Love me, love me
(Ooo Baby, won't you stay in my life)
Love me, Love me
Imma' give my all I promise woah.
While your laying there my hands are doing
Something else Oooooohhhh.
And when we face to face we stare Ooohhoohhhh
In Each others eyes
Oh Baby!

I love to make you scream Oh
Baby oooh, Til' the mornin' comes
If you like, I love it.
Let me get closer girl.
Excited cuz' you fightin'
I'm taking control when weForeplay
Ain't nothing to think about girl your so incredible
And when we foreplay
Imma' try to press your buttons
Now, Let me undress them buttons for you girl.
It's your day, We can do whatever have it
Your way I hope your ready for this ride so
Hold on uh on girl.

Know your body sensitive so when we kiss just
Love me.
That's rite girl I like it, So let me put a ring on it
Baby you just gotta'
Love me, the same way I feel for you.
Can you do that for me girl? Ah ah, Ah ah
It's your body.
Ah ah, Ah ah
Girl I love your body.
Ah ah, Ah ah
Wanna sex your body.
Ah ah, Ah ah
Baby when we Foreplay
Your so incredible
And when we foreplay
Imma' press your buttons (Buttons, buttons Yeah.)
It's your day, We can do whatever have it your way
Hold on uh on girl.
Know your body sensitive so baby just
Love me, love me yeah
Love me, Love me Ooohhh
Love me, Love me (ooohhh)
