

# Super Hero (feat. MF Doom)

Kool Keith

It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superheroJVC is nice  
I've been around Japan  
It's electronic, calls me Viktor  
High on the scales, off the Richter  
The media say I'm mature, check me out on Wikipedia  
Coach them off their walkers  
Let them walk again and run and speed up  
I come from a place where superheroes meet up  
The X Men drinkin' tea watchin' chicks with D cups  
Spiderman saw Doctor Oct spittin' on top of a New York City bus  
City Island eatin' shrimps  
Throwin' fries in water to swans and ducks  
It'd be wrong to the universe if I drive with a monster green Lamborghini up  
All the 5s come out to reunite, throw their beanies up  
I molest cholesterol, you's a fine tune abuser  
The Yankees lost but the blue and orange team amuse us  
I could make a million rappers whisper and hush  
Cold Stone ice cream, you don't have to lick that much  
They hold my balls, easy soft touch  
Throw your ladies some bucks  
The reindeers jump out, you need that antler juice  
Ski hat with the mommy goose  
It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superheroVik in the sick captain's pilot suit  
Designed by Travolta out his mind  
Is in the mind of another culture vulture  
Threw him from Tulsa to this dimension  
Right on time for the heroes hustlers convention  
It's no admission, you gotta be on the list  
Play your position, peon, against the metal fist  
He's on a purely secular mission  
Stroll through wearin' the DOOM Clarks, second edition  
Web slinger need a beat, well black him out  
Flank him out, test his spidey senses on his bank account  
For illest mention he hermaphrodite whose pants were tight  
Who dance iight  
Gave up the puck from Alpha Flight

The mass was bright as lightnin'  
Same type of shinin' got them Teen Titans fightin'  
Sippin' on that She-Hulk milk, at least she said it was milk  
In a Hello Kitty catsuit, I bet it was silk  
Grabbed the award for bein' hella raw  
Of course he scored the relic for  
Until next rhyme, y'all, Excelsior!  
It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superhero vision, sonic listen  
It's superhero
