

Company

Tinashe

Ayy, ayy, ayy
Uh, ayy what I don't need the lovin'. nope
So don't make this somethin'
See, I'm nothin' like a girlfriend, no
I'm not like someone I'm supposed to be
And I just want some company, company
And I just need some company, company
I just need some company, company
I just need some company, company Hey, yeah, shout out to my booty
I'm straight up with this one boy, I know it
I call it when I stop feelin' alone
I want it and sometimes, see, I don't
I don't need no problems with nobody
I know how to get that, unfollow me
I just need a moment, fuck and leave
You could say you had it all, no strings I don't need the lovin'.
Nope
So don't make this something
See
I'm nothin' like a girlfriend,
No
I'm not like someone I'm supposed to be
And I just want some company, company
And I just need some company, company
I just need some company, company
I just need some company, company
Companions, but we keep it even lower
I never ever been the type to ever just show up
And you can't ever be the type of guy to just show up
Treat it like a meet and greet and then we go up I don't need no problems with nobody
I know how to get that, unfollow me
I just need a moment, fuck and leave
You could say you had it all, no strings Had it all
You could say you had it all
You could say you had it all
You could say you had it all
You could say you had it all
You could say you had it all
All babe
You're just my little side thing
Just a little sweet fling

Baby you don't have to buy things
I just want the high, supply me I don't need the lovin'. nope
So don't make this somethin'
See, I'm nothin' like a girlfriend, no
I'm not like someone I'm supposed to be
And I just want some company, company
And I just need some company, company
I just need some company, company
I just need some company, company Da, da, da, I just need
I just need some company, company
I just need some company
