

# Loco

311

Hey you got to step outside to see what's going on  
Hey you can't run and hide when the 'psybin trip is on  
Not like this have you seen such green  
A spot like this becomes serene  
I'm glad your here i have no fear We trip the 'shrooms fantastic  
And shit gets drastic elbow pull and kick  
We trip the 'shrooms fantastic  
'N sit gets drastic, check it out Right now my brain is fragile  
But you seem so agile we'll amke it in tea  
And we'll see what there is to see  
CHORUS Make an instrumental add a little vocal  
Take to the stage and make the people go loco  
Make an instrumental add a little vocal  
Take to the stage and make the people go loco Boom boom you got the spinning of the room  
Quite right you got the breaking of the light  
Boom boom you got the spinning of the room  
Quite right you got the breaking of the light  
Ad the sun and the moon and the spinning of the room  
It does to my sight what the prism does to light You're quicker than me ridiculous see  
You come follow me get lobotomy  
You're quicker than me ridiculous see  
You come follow me get lobotomy CHORUS  
Make an instrumental add a little vocal  
Take to the stage and make the people go loco  
Make an instrumental add a little vocal  
Take to the stage and make the people go loco Make an instrumental add a little vocal  
Take to the stage and make the people go loco  
Make an instrumental add a little vocal  
Take to the stage and make the people go loco
