

My Moment (feat. 2 Chainz, Meek Mill & Jeremih)

DJ Drama

You see I been waiting, waiting on that time
Feel me if you been waiting on yours, that moment is close
Tired of living day to day like everything is alright
Just waiting on that moment, waiting on my moment
Old dude met mom, it was on
Then he named me over a phone, prison term
Live and learn, sippin' syrup with my vision blurred
Take this cup of reality, niggas, finna err
When you start from the bottom you can see the top
So when you get to it, don't let 'em see the spot
Next thing you know you lookin' for a rent sign
Upper echelon, bitch we skip line
I remember reminiscing in the kitchen like
I wonder when the Braves gon' win it
I wonder when the Falcons gon' get here
Pyrex vison, made more than I ever made with DTP this year
Tired of livin' day to day like everything is alright
Every night just one thing on my mind
Just waiting on that moment
Waiting on my moment
You say how you got that off shit, hell nah
Next time that's mine, as long as I stay hustling, I'm gon' shine
Just waiting on that moment
Waiting on my moment
Just waiting on my moment, bad hoes I'm shonin'
Time came and I owned it, just like LeBron James and start ballin'
When I touch the rock and I cracked the block
When I pulled up in that muscle drop
With that roof off and my shoes off, on you bitch niggas,
RuPaul
Real nigga in my hood, who everybody gon' root for
'Cause they see my come from that bottom
Where everybody get bodied, they told me get 'em, I got 'em
Now I'm here nigga, like yeah, nigga, just Rolls Royce and Bugattis
And M4's this year nigga, If I don't grind, I don't shine
If I don't shine, then I don't eat, won't eat, then I'ma starve
If I'ma starve, I pull heat, on all y'all bitch ass niggas
All y'all rich ass niggas 'cause if I don'
make no money nigga
I'm gon' take yo money nigga
Tired of livin' day to day like everything is alright
Every night just one thing on my mind
Just waiting on that moment
Waiting on my moment
You say how you got that off shit, hell nah
Next time that's mine, as long as I stay hustling, I'm gon' shine
Just waiting on that moment
Waiting on my moment
Since life ain't promised tomorrow, live it up, live it up, live it up
Here before it come this far give it up, give it up, give it up

I won't give it up, give it up, give it up
Until I have it all, yeah Tired of livin' day to day like everything is alright
Every night just one thing on my mind
I'm just waiting on that moment
Waiting on my moment You say how you got that off shit, hell nah
Next time that's mine, as long as I stay hustling, I'm gon' shine
Just waiting on that moment
Waiting on my moment
