

# Kindly Calm Me Down

Meghan Trainor

So cold, alone  
Could you be my blanket?  
Surround my bones  
When my heart feels naked  
No strength, too weak  
I could use some saving  
And you're love's so strong  
Like a pill I take it, I take it, I take it  
Like a pill, your love, I take it  
I take it, I take it  
Like a pill, your love, I take it  
When my world gets loud, could you make it quiet down?  
When my head, it pounds, could you turn down all the sound?  
If I lay in pain, by my side would you stay?  
If I need you now, would you kindly calm me down?  
Oh-oh-oh, oh-oh-oh, would you kindly calm me down?  
Oh-oh-oh, oh-oh-oh, would you kindly calm me down? When my heart's not pure  
Would you kill my disease?  
And when there's no cure  
You are just what I need  
When I lose my mind  
Would you still remind me?  
When I'm feeling lost  
Would you come and find me?  
I'd take it, I would take it  
Like a pill, your love, I take it  
I take it, I take it  
Like a pill, your love, I take it  
When my world gets loud, could you make it quiet down?  
When my head, it pounds, could you turn down all the sound?  
If I lay in pain, by my side would you stay?  
If I need you now, would you kindly calm me down?  
Oh-oh-oh, oh-oh-oh, would you kindly calm me down?  
Oh-oh-oh, oh-oh-oh, would you kindly calm me down?  
When my world gets loud, could you make it quiet down?  
When my head, it pounds, could you turn down all the sound?  
If I lay in pain, by my side would you stay?  
If I need you now, would you kindly calm me down?  
When my world gets loud, could you make it quiet down?  
When my head, it pounds, could you turn down all the sound?  
If I lay in pain, by my side would you stay?  
If I need you now, would you kindly calm me down?

Oh-oh-oh, oh-oh-oh, would you kindly calm me down?  
Oh-oh-oh, oh-oh-oh, would you kindly calm me down?
