

Wasatch Front

Dame D.O.L.L.A.

Reminiscing on the days I ain't know what was ahead
What I gotta do to make sho the family fed
Staring at the ceiling struggling to go to bed
Tryna pass class split the needle with a thread
Far away from home and feeling so alone
A boy amongst men I ain't even wear cologne
Girls call me MCM, I'm tryna be Jerome

The Jazz up the road I wanna play for Jerry Sloan
Got to college me and mama had to setup the
dorm

Shortly after got the first tat on my my upper arm
Hit the volley ball game yea that welcome was warm
She crying driving off time to weather the storm
First day I stumbled in teacher hand us the syllabus
I'm Dame from east Oakland I don't know if I'm feeling this
The notice the temperament right away
Wonderin if I should stay

In my heart I know that this the right move for nicer pay
They ask me Dame how ya classes, I saw a few distractions
But nothin serious enough to make me late for practice
I'll be there coach, I'm jumping on the shuttle
He said if you on time that mean you late you better hustle
Grab my bags, got that town swag
iPod slappin, listenin to "Black Mags"

That boy out on his own, thinking that he grown
Wet behind the ears tryna show he got some stones
Reminiscing on the days I ain't know what was ahead
What I gotta do to make sho the family fed
Staring at the ceiling struggling to go to bed
Tryna pass class split the needle with a thread
Far away from home and feeling so alone
A boy amongst men I ain't even wear cologne
Girls call me MCM, I'm tryna be Jerome

The Jazz up the road I wanna play for Jerry Sloan
I been on campus for some time, but I ain't
working enough

I claimed I wanna make it, Phil was first to call my bluff
I ain't have curfew I'm seeing what that work do
Up through the campus I could tell you every perfume
Turnt at every party, my cut on Steve Harvey
Tryna MC and be fly call me Marty
Was hardly ever tardy, we showed up like a army
A lot of love for hoopers, a couple sports was salty
I'm sorry, eventually I got up on my job

Game winning treys and I started catching lobs
 Won a MVP everybody givin props
 Broken 5th metatarsal headed to the docs
 Can't believe it, in my feelings
 Head up in my palms
 Moms livin with my auntie set off an alarm
 Stayed at school for summer cuz the city doin harm
 Bout to make the most of the given deck of cards
 Reminiscing on the days I ain't know what was ahead
 What I gotta do to make sho the family fed
 Staring at the ceiling struggling to go to bed
 Tryna pass class split the needle with a thread
 Far away from home and feeling so alone
 A boy amongst men I ain't even wear cologne
 Girls call me MCM, I'm tryna be Jerome
 The Jazz up the road I wanna play for Jerry Sloan
 Fall 2011, I'm high minded, noble
 Did the work it's time for me to do what I'm suppose to
 Huey told me dominate and let them coaches coach you
 Started gettin media, none of it was social
 Elevated my mentality all I see is casualties
 How he get to Weber State, my performance baffling
 All the girlies after me, I got reporters chattering
 Started hearing whispers, they thinking bout draftin me
 I'm to the lab, let's work that dribble jab
 If I get this down I'm gettin 20 at half
 They try to double me I hit a shot look at the staff
 I was in my bag, I'ma get the last laugh
 Coach said come on by my office, I got a bone to pick
 Busted out in tears you know how them moments get
 He said this year ya last, gotta put you in the Draft
 Blazers took me number 6, that's a mission passed
 Reminiscing on the days I ain't know what
 was ahead
 What I gotta do to make sho the family fed
 Staring at the ceiling struggling to go to bed
 Tryna pass class split the needle with a thread
 Far away from home and feeling so alone
 A boy amongst men I ain't even wear cologne
 Girls call me MCM, I'm tryna be Jerome
 The Jazz up the road I wanna play for Jerry Sloan
