

No One Compares (feat. Prince Royce)

[Jessica Sanchez](#)

Still it's you I want the most
'Cause no one compares
No one compares A thousand days could pass us by
But you would still be on my mind
'Cause no one compares
No one compares To you. Sometimes your mind plays tricks
Your heart might cry
Yes she might even catch my eye
But no one compares
No one compares I could find my way to paradise
But it won't be worth the ride
But no one compares
No one compares
They could hold their numbers in my face
They could cast a spell adjust our fate
But you know
