

# 10 Days Late

## Third Eye Blind

Click your heals  
And feel you come for me  
Care free, she's got somethin' big to tell me  
At the ocean  
Talk back at the ocean  
There's no simple way  
To let you know  
Funny how she always cried out daddy  
I got a big surprise, she said I'm in trouble now  
And it cannot wait  
She's ten days late  
Boy, your life got complicated  
Well I can't wait  
To see this through  
She's ten days late  
Ten days late  
Low ride bicycles go cruisin' by  
I laugh  
I don't even know why  
Talk back at the ocean  
Consequence and ozone  
Catch a glow  
Ah ah ah  
Oh no, baby, oh no noNo  
Give me a minute now  
To figure out my state  
Oh I know, she's ten days late  
And I don't know  
Where to take it  
But it's still, great  
Knowin' you  
She's ten days late  
Ten days late, ah ooh  
Time has come for you to choose  
(Woo)  
Baby daddy keep your boo  
Many blessings come to you  
Baby daddy keep your boo  
Baby daddy keep your boo  
Baby daddy keep your boo  
Your eyes look to me for what to do  
I can't lie, uh uh  
I don't know

At the ocean and  
Talk back at the ocean  
No ones laughin'  
Now what do I say  
I walk away but, oh no  
Don't go  
At the ocean and  
Talk back at the ocean Give me a minute now  
To figure out my state  
She's ten days late  
And I'm never goin' to fade it  
Guess I'll always be  
Knowin' you  
(Ten days late)  
Knowin' you  
Knowin' you  
Crawl on the bedpost
