

# Like Real People Do

[Hozier](#)

I had a thought, dear  
However scary  
About that night  
The bugs and the dirt  
Why were you digging?  
What did you bury  
Before those hands pulled me  
From the earth? I will not ask you where you came from  
I will not ask and neither should you  
Honey just put your sweet lips on my lips  
We should just kiss like real people do I knew that look dear  
Eyes always seeking  
Was there in someone  
That dug long ago  
So I will not ask you  
Why you were creeping  
In some sad way I already know So I will not ask you where you came from  
I would not ask and neither would you Honey just put your sweet lips on my lips  
We should just kiss like real people do  
I could not ask you where you came from  
I could not ask and neither could you Honey just put your sweet lips on my lips  
We could just kiss like real people do
