

# From You

## Grace

Am I right or wrong?  
Cause I risk it all to make you miss me babe  
If I let it go then baby you'll never know the time that we waste  
And you promise me you would change, well never do  
But I stay with you, I stay with you I'll never be the first to call  
Make you believe we got it all  
I'll be the girl to break your heart  
I get it from you  
I'll tell you jump and watch you fall  
Play with you like a barbie doll  
Say I love you then I break it off  
I get it from you, yeah  
Oh I might as well just lay here with you  
Since you beg me not to go  
Between faded walls  
Late at night is that your boss who calls, huh?  
And if I overthought or maybe I'm too involved  
Correct me if I'm wrong I'll never be the first to call  
Make you believe we got it all  
I'll be the girl to break your heart  
I get it from you  
I tell you jump and watch you fall  
Play with you like a barbie doll  
Say i love you then I break your heart  
I get it from you, yeah  
I'll never be the first to call  
Make you believe we got it all  
I'll be the girl to break your heart  
I get it from you  
I tell you jump and watch you fall  
Play with you like a barbie doll  
Say I love you then I break your heart  
I get it from you, yeah I'll never be the first to call  
Make you believe we got it all  
I'll be the girl to break your heart  
I get it from you  
I tell you jump and watch you fall  
Play with you like a barbie doll  
Say I love you then I break your heart  
I get it from you, yeah
