

Fishin'

Chris Lane

Girl let me put this out there
I wanna take you out where
We can get a little fresh air
Pop a top, share a spot
On a lawn chair
Honey sucklin' your long hair Girl I swear I can hear them crickets cricken'
While them limes are getting twisted
And the sun is slowly sinkin' like a barber tonight And when they ask us where we're headin'
We'll say somewhere where
They're bitin', little secret spot hidin'
When them lightin' bugs are buggin' Catch a buzz and catch a feelin'
Just a reelin' you in
Stealin' kisses, just go missin'
When they ask where we've been
We'll call it fishin'
We'll call it fishin' Get a little off the radar
Break out my old guitar
Plop pourin' in a mason jar
I take a sip, make a wish
On a shootin' star
Girl you got me hook, line and sinker And when they ask us where we're headin'
We'll say somewhere where
They're bitin', litte secret spot hidin'
When them lightin' bugs are buggin'
Catch a buzz and catch a feelin'
Just a reelin' you in
Stealin' kisses, just go missin'
When they ask where we've been
We'll call it fishin'
We'll call it fishin' Watch your pretty little painted up toes
Disappear in the water
Baby don't you love it out here
Just stay a little longer
A little longer
Baby we'll be goners When they ask us where we're headin'
We'll say somewhere where
They're bitin'", little secret spot hidin'
And them lightin' bugs are buggin'
Catch a buzz and catch a feelin'
Just a reelin' you in Stealin' kisses, just go missin'
When they ask where we've been
We'll call it fishin'

Yeah, yeah, we'll call it fishin'

Yeah, we'll call it fishin'

Yeah, yeah, we'll call it fishin'
