

# Cry (feat. Yoste)

Gryffin & John Martin

[Verse 1]

Time's on your side  
When you're six years young and brave  
Heart's beating wild  
Like it's strong and?could?never break[Pre-Chorus 1]  
Then you?meet your first love  
Just to learn?a lesson  
Guess it's kinda fun in a funny way  
Then it?gets?deep  
And?you say I'll?never leave ya  
'Til?you get scared and you run away

[Chorus]

Remember while I say you can cry  
'Cause your tears are gonna dry  
I wouldn't lie  
Cross my heart and hope to die  
I hope you know that I will be here  
With my shoulder by your side  
So cry  
You can leave it all behind tonight[Drop]  
Cry, I

You can leave it all behind

[Verse 2]

Now you're up in the night  
Thinking 'bout a call that you never made  
You work for a life  
That you don't want anyway  
[Pre-Chorus 2]  
Then you meet a real one  
Learn another lesson  
Guess it's kinda fun in a funny way  
Then you wanna be heard, scream until your chest hurts  
Are you gonna stay or runaway?[Chorus]

Hear me while I say you can cry  
'Cause your tears are gonna dry  
I wouldn't lie  
Cross my heart and hope to die  
I hope you know that I will be here  
With my shoulder by your side  
So cry  
You can leave it all behind tonight[Drop]  
Cry, I

You can leave it all behind tonight  
Cry, I  
You can leave it all behind  
[Bridge]  
When the words to your chest hurt  
You can leave it all behind  
When you know it can't get any worse  
Keep your shoulder close to mine  
When your eyes are about to burst  
Let it out you'll be alright  
You can leave it all behind  
Leave it all behind yeah[Drop]  
Cry  
'Cause your tears are gonna dry  
I wouldn't lie  
Cross my heart and hope to die  
I hope you know that I will be here  
With my shoulder by your side  
So cry  
You can leave it all behind tonight
