

# One More

## Cheap Trick

Give me just a little bit, little bit mo'  
Just another try to even up the sco'  
Give me just a little bit, I wanna taste some mo'  
Give me just a little bit and then I need some more  
Give me just a little bit and then I need some more Can I have a little bit, a little bit a you?  
A little bit more, a little bit mo', then a little bit mo'  
Who's that knockin', knockin' at the do'?  
Well, it's just me like I said before, knockin' at the do' like I said befo' All I need is one more day  
One more hour, one more way  
I'll be in sunshine, here I'm gonna stay  
Please let me stay, I'm askin' one more time  
Just one more day  
There I go, I go again to even up the sco'  
Callin' in for more, callin' in for mo', callin' in for mo'  
If I see a little bit, can I see a little bit?  
A little bit-o-this and a little bit more  
A little bit-o-this and a little bit more All I need is one more day  
One more hour, one more way  
I'll be in sunshine, here I'm gonna lay  
Please let me stay, I'm askin' one more time  
Just one more day, yeah All I hear is no, no, no  
One more hour and then I'll go  
Deep inside you'll never find me again, find me again  
I'm never comin' back, comin' back again  
All I need is one more day  
One more hour, one more way  
I'll be in sunshine, here I'm gonna lay  
Please let me stay, I'm askin' one more time  
Just one more day All I hear is no, no, no  
One more time and then I'll go  
Deep inside you'll never find me again, find me again  
I'm never comin' back for one more day, yeah
