Estelle

[Intro]

(I bet that one girl better for me)  
(I bet that one girl better for me)  
(I bet that one girl better for me, better for me, better for me)  
(I bet that one girl better for me)  
(I bet that one girl better for me)  
(I bet that one girl better for me)  
(You the one girl better for me)[Verse 1]

Hit me up on the low  
Don't you stop when we go  
Keep me on tippy toes now  
You love that thing when it poke out  
You see when I'm walking away  
You fiend and you want me to stay  
Let's leave, get away for the day  
Top floor reservation

[Pre -Chorus]

We can get comfortable  
I get you comfortable  
I show you something  
Twist up that antidote  
Show me that animal  
Go 'head and give it all to me baby[Chorus]

No one in the world  
No one in the world  
No one in the world  
Can love you better, better  
Than I, I, I, I  
I, I, I, I (no one in the world)  
I, I, I, I

They try-y-y-y  
But I am better, better

[Refrain]

(I bet that one girl better for me)  
(I bet that one girl better for me)  
(I bet that one girl better for me)  
(Better, better)[Verse 2]  
You had my body hot from the first kiss  
You gotta keep it simple baby, nurse it  
Then go a little deeper than the surface  
So you can hurt this on purpose  
Tell me how it fit, how it feel

Tell me if I grip you well  
Tell me what you want, Dru hill  
Tell me what you want[Pre-Chorus]  
We can get comfortable  
I get you comfortable  
I show you something  
Twist up that antidote  
Show me that animal  
Go 'head and give it all to me baby[Chorus]
