

Speed

L.A. Guns

Yea I'm half way there and a way to go
Can't see the needle cause the gas is low
Got the top down and the radio
Can't hear a word your sayin
Nobody gunna take my car
I'm gunna leave that cat in burning tar
LICK THAT MUD GOD
To the moon and a shooting
star
You and me we need it
We got the ones are first
Live for the fallen first
Go! Aye!
A little speed will make you want a little more
Go! Aye!
A little bit will make you want a little more
Go! Aye!
A little speed will make you want a little more
Go! Aye!
A little bit will make you want a little more
Come on now
Eyes on the horizon tonight
Hit the quarter mile in half the time
I got the wheel and the road is mine
Cant stay up all night
She's gonna drink a lot of gasoline
You know I'm living in a V8 dream
Live for BLACK BITCH
But I got a little beauty queen
You and me we mean it.
we got the wonder hurst
Live for the fallen first
Come on
Yaaaa!
Go! AYE!
A little speed will make you want a little more
Go! Hey!
A little bit will make you want a little more
Go! Aye!
A little speed will make you want a little more
Go! Aye!
A little Speed will make you want a little more
Road sign passing by
Slow ride and I'm hypnotized
Long road not going anywhere
When I'm driving baby I don't fuckin care!
Ooh
Come on
Go! AYE!
A little speed will make you want a little more
Go! Hey!"!
A little speed will make you need a little more

Go! Aye!
A little speed will make you want a little more
Go! Aye!
A little Speed will make you need a little moreGo! Aye!
A little Speed will make you need a little more
Go! Aye!
Give me a mother fuckin speed!
