

# Last Night

## Good Charlotte

Let's go All that I remember  
Is that you had me at hello  
I knew right when I met her That I wouldn't take it slow  
The more we heard the music, the more we got in sync  
The more I kept you laughing, the less I stopped to think The last thing I remember, you said  
this place is beat  
It must have gotten crazy 'cause I can't recall a thing  
Last night  
(last night)  
Can't remember?  
(Remember)  
What happened?  
(What happened?)  
Where'd we go?  
I woke up  
(Woke up) This morning  
(This morning)  
Where's my car? Where's my keys?  
Where's my clothes?  
I feel my head's still spinning  
But I'm doing alright (Hey)  
'Cause I think I just had the best night of my life  
Last night  
(Last night)  
Can't remember  
(Remember)  
What happened?  
Did it happen?  
Last night Everyone's been calling  
Like I've been gone for days  
There's a note left on the table And all it says is "Thanks"  
It's starting to get dark outside, I'm finally awake  
I'm feeling kind of guilty; is there something I can take?  
There's lipstick on my collar, I'm piecing it together  
Then I see a picture of me and you  
Last night (Last night)  
Can't remember  
(Remember)  
What happened?  
(What happened?) Where'd we go?  
I woke up  
(Woke up) This morning

(This morning)  
Where's my car?  
Where's my keys?Where's my clothes?  
I feel my head's still spinning  
But I'm doing alright  
(hey)  
'Cause I think I just had the best night of my life  
Last night(Last night)  
Can't remember  
(Remember)What happened?  
Did it happen?  
Last NightAnd did I get the chance to say  
That I wanted you to stay  
There's things I can't explain  
'Cause my brain don't work that way  
Don't call this a one night stand, no, it wasn't planned  
Wasn't in my head but I just wanna do it againAnd again and again just like  
Last night  
(Last night)  
Can't remember  
(Remember)What happened?  
(What happened?)  
Where'd we go?  
I woke up  
(Woke up)  
This morning  
(This morning)  
Where's my car?  
Where's my keys?  
Where's my clothes?  
I feel my head's still spinning  
But I'm doing alright  
(hey)  
'Cause I think I just had the best night of my life  
Last night  
(Last night)  
Can't remember  
(Remember)  
What happened?  
Did it happen?  
Did it happen?  
Last Night
