

# I Don't Love You Anymore

## Anarbor

I can feel I'm breaking through  
rushing towards the core of you  
destroying your anatomy  
you bring out the worst in me  
ohh ohh ohh Can you tell that I'm afraid  
I don't wanna live this way  
destroying your anatomy  
you bring out the worst in me  
ohh ohh ohh If this is love then fuck it, I don't want it anymore  
If this is love then fuck it, I was better off before  
If this is love then fuck it, lose the battle win the war  
I don't love you anymore  
Ripping your chest apart  
won't stop till your beating heart  
bit off more than you could chew  
I learned everything from you  
ohh ohh ohh I don't think you realize  
you used to buy your alibis  
bit off more than you could chew  
I learned everything from you  
ohh ohh ohh If this is love then fuck it, I don't want it anymore  
If this is love then fuck it, I was better off before  
If this is love then fuck it, lose the battle win the war  
I don't love you anymore  
You hate my friends  
it never ends  
I lift you up  
you put me down  
into my grave  
you've got the dirt  
you smiled and waved If this is love then fuck it, I don't want it anymore  
If this is love then fuck it, I was better off before  
If this is love then fuck it, lose the battle win the war  
I don't love you anymore If this is love then fuck it, I don't want it anymore  
If this is love then fuck it, I was better off before  
If this is love then fuck it, lose the battle win the war  
I don't love you anymore (If this is love then fuck it, I don't want it anymore)  
I don't love you anymore  
(If this is love then fuck it, I was better off before)  
I don't love you anymore  
(If this is love then fuck it)  
lose the battle win the war

I don't love you anymore
