

# You Got Me (feat. The Lox)

LSG

[Featuring The Lox]

[Lox]

Uh, yeah, uh huh, yeah  
Yeah, yeah, yeah, uh huh, yeah, yeah

It's another one

Uh huh, yeah, yeah

It's another one, and another one

You got me where you want me

You could listen to Levert while leaving the country

And then sweat it out when you feel comfy

Or play Gill to the minute that ou say you're hungry

Uh, you got me where you want me

You could listen to Levert while leaving the country

And then sweat it out when you're feeling comfy

Or play gill to the minute that you say you're hungry

Uh, you got me where you want me

You could listen to Levert while leaving the country

And then Sweat it out when your'e feeling comfy

Or play Gill to the minute that you say you're hungry

[LSG]

I know

You need

Love and understanding

Sometimes

Feel like

I can't give you more of my time

You keep on wanting me

To be there girl

But I can't be

Why you keep stressing me

When you know I'm doing my best

I keep on telling you

I do the best that I can do

How can I get through to you

Everything I do is for you

1 - You got me where you want me

Tell me what you need

Take me baby

Tell me what you want

Anywhere you wanna go is for me

You got me where you want me

I can't keep on going through these changes

The more you doubt me  
You keep pushing me away girl  
You keep on wanting more  
I'm doing my best  
I'm doing everything for you  
Repeat 1  
Girl, you got me yearning  
Yearning to know what I'll do with love  
Can you tell me what I'm doing  
But I'm always saying you don't understand  
I'll never leave you alone  
Repeat 1  
Repeat Lox  
Repeat 1 until fade
