

# Cigarettes & Cush (feat. Kehlani & Lily Allen)

## Stormzy

I'm sorry that I'm late  
And I missed your call  
But you know night turn into day  
I didn't stop to pause  
I know I never see your face  
And baby, that's my fault  
But I'ma fix all my mistakes  
So don't stress no more You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush (alright)  
You don't ever let me down  
You got those cigarettes and cush (alright)  
You don't ever let me down  
You got those cigarettes and cush (alright)  
You don't ever let me down  
You don't ever let me down  
Got those cigarettes and cush  
You don't ever let me down  
All those other girls just look  
They ain't never takin' your crown  
And girl I know it gets on your nerves sometimes  
When I don't answer my phone  
And yeah I double back on my words at times  
But please don't start with that tone, 'cause girl  
I love you, you know, but I can't be there  
But when I get home, just roll my weed, yeah  
What's mine is yours, give you space to breathe here  
Just weed and cush, that's a major key here  
Yeah, then you play me a song  
Smokin' smoke 'til we're wavy and gone  
Come home from a long hard day with the dons  
Like where's my baby? I'm sorry it's been long  
I'm sorry that I'm late  
And I missed your call  
But you know night turn into day  
I didn't stop to pause

I know I never see your face  
And baby, that's my fault  
But I'ma fix all my mistakes  
So don't stress no more You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
As much as you think you're a thorn  
In the way that you feel, I come home  
Every day when it rains  
But it's real  
Between us, ground so far beneath us  
Sometimes I can't read ya  
But it don't mean I won't treat ya  
To a blunt full of that reefer  
We may get in fights  
But I could never see me leavin'  
Somethin' 'bout our [?] the high can bring us  
Sober just don't please us  
If you're wondering, yeah, I'm still here because I see us  
But Mary makes it easy to talk to you  
Aww, yeah  
'Cause sometimes I just can't spill my thoughts to you  
I took you in every day  
At the end of every day I belong to you  
Belong to you  
I'll still pass the bong to you  
I'll write a song to you  
I'll do no wrong to you I'm sorry that I'm late  
And I missed your call  
But you know night turn into day  
I didn't stop to pause  
I know I never see your face  
And baby, that's my fault  
But I'ma fix all my mistakes  
So don't stress no more You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush

You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
You got those cigarettes and cush  
You don't ever let me down  
I promise You don't ever let me down  
I won't ever let you down  
'Cause you don't ever let me down  
I won't ever let you down  
'Cause you don't ever let me down  
I can't ever let you down, down, down  
Down, down, down, down It's been like a month now  
Since you left my side  
Got me smokin' a blunt now  
But there ain't no vibe  
'Cause I fucked up badly  
All I did was push  
Now there's no more weed  
No more cush  
And I'm deep in the south side  
And I can't find love  
I was lookin' for my brown skin  
Tryna find that buzz  
Now what have you done, Stormz?  
Now what have you caused?  
And we weren't just bredrens  
We were so much more  
Girl you was my hero  
The beat to my heart  
And them tears on your face  
Man they tear me apart  
Man I just wanna fix you  
Fix what I broke  
No covers on the sofa  
No more smoke  
And I pray God saves you  
Man I pray all night  
I just wanna say thank you  
'Cause you saved my life  
But I cut you deep  
And I know how it looks  
Now there's no more weed  
No more cush  
No more cush  
No more cush, yeah

Now there's no more cash  
No more cash
