

Put My Heart Down

Sara Evans

I never pictured us ever fighting this much
Thought we were figured out
But it's so messy now
Your words they cut so deep
And I think that you should leave
I'll have to live without
What I can't live without
It already hurts, so before it gets worse

()

Just put my heart down, put my heart down, put my heart down, put my heart down

And walk away

Just like it was, a loaded gun

Put my heart down, put my heart down, put my heart down, put my heart down

And walk away

This kind of love

Is dangerous So pack up all your things

Just leave some air to breathe

A million toxic tears

Falling like rain around here

This is the final hour

The end of our story tonight

I don't wanna fight

()

So put my heart down, put my heart down, put my heart down, put my heart down

And walk away

Just like it was, a loaded gun

So put my heart
