

Recovery

Gramatik

My head is achin from last night
Everywhere I look is much too bright
At a certain time it all went dark
Never did expect to go this far
In my right mind
I shoulda listened to what you said
But this time
Can't be responsible for what I did
I'm in Recovery
Can't let temptation bring me down
Tryin to get over it
Gotta do work to get over
Gotta do work to get over
I'm in Recovery
Can't let this feelin hang around
Just Tryin to get over it
Gotta do work to get over
Gotta do work to get over
Don't know how I got back here so fast
Shoulda left a little in the glass
Now I gotta pick my pieces up
So I can understand what you're speaking of
In my right mind
I shoulda listened to what you said
But this time
Can't be responsible for what I did
I'm in Recovery
Can't let temptation bring me down
Tryin to get over it
Gotta do work to get over
Gotta do work to get over
I'm in Recovery
Can't let this feelin hang around
Just Tryin to get over it
Gotta do work to get over
Gotta do work to get over
