

You Don't Know (feat. Wale)

Tank

If only you'd knew, only you know
If only you'd knew, only you know, yeah
If only you'd knew, only you know
If only you'd knew, only you know, yeah If only you knew how much I do love you
Then, you wouldn't be trippin' bout my niggas
Now say, you wouldn't be trippin' bout these bitches, now
But you don't know
You don't know, you don't know
Baby, you don't know, you don't know
You just don't know What's it gonna take for you to know you're the only one that I want
around?
What's it gonna take for you to know I know you're the only one that holds me down?
Girl, you don't know that I know, you should know (you should know)
Girl, you don't know, you don't know, you don't know
If only you knew how much I do love you
Then, you wouldn't be trippin' bout my niggas
Now say, you wouldn't be trippin' bout these bitches, now
But you don't know
You don't know, you don't know
Baby, you don't know, you don't know
You just don't know Blaze an eighth of that straight up
Is it love or lust? I can't say though
Why these snakes be on my mind?
Why do lepradon see all these dadoses?
Honestly I can't take it
Baby I'm the sole reason you been winning
Look, let me paint the story I don't play with toys
She said "build me up" I told her "lego"
She wanna be them popular hoes
I wanna be where my pockets will grow
She wanna be in a awkward position cause I like a woman that think on her own
Don't need no cellmate, on cellular phone
That mean don't call me, don't be all up on me
Don't grab me in public, but ride me in private
That Patty was crazy one thing
I discovered is love.
If only you knew how much I do love you
Then, you wouldn't be trippin' bout my niggas
Now say, you wouldn't be trippin' bout these bitches, now
But you don't know
You don't know, you don't know Baby, you don't know, you don't know
You just don't know

Cause every little thing you do
I don't need a starting five now,
Every little thing your body do
Do it to me every night oh, You don't know, you don't know, you don't know
Ain't no way I'm gonna never let you go.
If only you knew how much I do love you, oh I love you, I wanna love you, oh I love you
Then, you wouldn't be trippin' bout my niggas
Now say, you wouldn't be trippin' bout these bitches, now
But you don't know
You don't know, you don't know
Baby, you don't know you don't know
You just don't know
