Ain't Worth the Whiskey

Cole Swindell

I dont care that you done me wrong
Cause Ive already moved on
I dont care what his name is
Girl it is what it is

I wont waste a dime or the bartenders time
Tryin to catch a buzz, over the thought of usBut Ill drink to a country song
to another long work week gone

And Ill raise my glass to a long lost buddy I aint seen

I might stay for one more round

Or I might close this place down

But dont think for a second Im out to drown your memory

Baby you aint worth the whiskey

It dont matter what your friends say

They never liked me anyway

So if they see me drunk in this bar

It aint over a broken heartCause Im drinkin to a country song

to another long work week gone

And Im raisin my glass to a long lost buddy I aint seen

I might stay for one more round

Or I might close this place down

But dont think for a second Im out to drown your memory

Baby you aint worth the whiskey

Cheers to a good country song

To another long work week gone

Yeah Im raisin my glass to those saving our ass overseas
I might stay for one more round, hell I might close this place down
But dont think for a second Im out to drown your memory
No dont think for one second Im out to drown your memory

Girl you aint worth the whiskey

Noo-hoo

Baby you aint worth the whiskey
