

# Crush

## DUCKWRTH

I can just watch you dance all night  
And you would never let me down  
You could never let me down (Crush) I can fall in love with you all night  
And you would never let me down  
A crush is my favorite sound (Crush) I never planned to crush  
But I'm saying all them things to make you blush  
This is such a rush  
Blood to the head, like I'm upside (down)  
Let you cool down, you ain't a tough guy (Say that)  
Unless you looking for a rough ride  
Poppin' wheelies in the sunshine, play that  
Put you on my BMX, feel like a Maybach  
Ooh, throw it back just like a 8 track  
Marvin Gaye, we do it your way  
Usher Raymond, do it my way  
What happens when you stick that jam in the middle of the yams? (Crush) I can just watch you  
dance all night  
And you would never let me down  
You could never let me down (Crush)  
I can fall in love with you all night  
And you would never let me down  
A crush is my favorite sound (Crush) You just running through my brain  
On it like dew on the window pain  
7 a.m., we was up all night  
I was watching you dance in pale moonlight  
Everything looked good, easy  
I don't wanna get misunderstood, believe me  
I've been crushing way too long, I can't wait no more  
Get the horses out the stables, now we really taking off  
Marvin Gaye, we do it your way  
Usher Raymond, do it my way  
What happens when you stick that jam in the middle of the yams? (Crush) I can just watch you  
dance all night  
And you would never let me down  
You could never let me down  
I can fall in love with you all night  
And you would never let me down  
A crush is my favorite sound (Crush) I can just watch you dance all night  
And you would never let me down  
You could never let me down (Crush)  
I can fall in love with you all night  
And you would never let me down

A crush is my favorite sound (Crush)
