

Red Bottom Sky

Yung Lean

Leandoer, Sadboys

Never

SadboysIce dropping, red bottom sky

Intrigued by the moment, look like she know why

Ice dropping, red bottom sky

Ice on my feet, I keep slipping (slipping away)

Ice dropping, red bottom sky

Intrigued by the moment, look like she know why

Ice dropping, red bottom sky

Ice on my feet, I keep slipping (slipping away)

Soldiers in the night and we lurking

Medieval flowers in my church, we working

I'm in the bottom, let's be Silver Surfer surfing

I lived a thousand lives, but I'm still searching (where they at?)

Broken glass in my hands, sister's twerking

Money on the floor, is she nervous?

Paint a picture like Van Gogh, I'm cursed man

Skrrt skrrt to the moon bitch, I'm swerving (skrrt)

Hit the curve and my shit broke, bitch hurting

I was down, so deep down but time's turning

Darkness in my mind, flip the mattress, I got dough

Harvest on my line, I live the story I was told

Ice dropping, red bottom sky

Intrigued by the moment, look like she know why

Ice dropping, red bottom sky

Ice on my feet, I keep slipping (slipping away)

Ice dropping, red bottom sky

Intrigued by the moment, look like she know why

Ice dropping, red bottom sky

Ice on my feet, I keep slippingI heard shooters on the roof, yeah, they're trynna shoot ya

I'm in a dark room, candles singing hallelujah

You think I'm gone too much, well, I think I suit ya

You say I'm in my mind too much, well, I know that suits ya

I lost everything, only thing I'm scared is to lose ya

I heard voices in my head, yeah, they whispered to us

Paranoid, sledgehammer, that's my Ruger

Woke up, realized I had to move up

Worked myself away everyday, now my loot up

But the truth is, I wish I never knew us

God of violence, pink dreams in my two cup

I've told you this was gonna end, but I fooled yaIce dropping, red bottom sky

Intrigued by the moment, look like she know why

Ice dropping, red bottom sky
Ice on my feet, I keep slipping
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slippingFeels like I'm walking on water, not wine
Cut off my fingers to touch your smile
Feels like I'm walking on water, not wine
Cut off my fingers to touch your smileIce dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping (slipping away)
Ice dropping, red bottom sky
Intrigued by the moment, look like she know why
Ice dropping, red bottom sky
Ice on my feet, I keep slipping
