

# Just the Same

Bruno Major

Smash all the pictures where I am in the frame  
Toll my emotions as if it is a game  
In the heat of the moment, call someone else's name  
I would love you just the same Drag me through the dirt  
Cut me to the bone  
Leave me for dead  
Love your way back home  
I'd still be smiling like a madman in the rain  
I would love you just the same  
So do your worst to me  
Test me loyalty  
I will pass with distinction of first degree  
I lost my mind to you  
Somewhere down the line that you drew  
But I only have myself to blame  
'Cause I'd still love you just the same Flood me with madness 'til the river's running red  
Make me an outlaw  
Put a price among my head  
And cause me to exile for a house for the insane  
And I will love you just the same  
So do your worst to me  
Test my loyalty  
I will pass with distinction of first degree  
I lost my mind to you  
Somewhere down the line you drew  
But I only have myself to blame  
'Cause I still love you just the same 'Cause I still love you just the same
