

# Hollywood

Daniel Powter

Hey, well this could be cool  
'Cause we could be together but nothing lasts forever  
Me, I'll be your fool  
Pick you up when you fall down And move across the dance floor  
Let me buy you a drink or two  
And you could be my star for weekends  
Do you like your Hollywood?  
As far as I'm concerned, these lesson's been learned  
At least that's what I understood That's right Hey, tell your daddy not to wait up  
You're not coming home, you're all mine  
And that's fine, I'll keep you by my side  
Oh, a few work all our lies  
And move across the dance floor  
Let me buy you a drink or two  
And you could be my star for weekends  
Do you like your Hollywood?  
As far as I'm concerned, these lesson's been learned  
At least that's what I understood Come on Writing a letter that you not come back  
These days ain't been good, but then these days ain't so bad  
Sooner or later when you come around  
You've got these problems, then I'll write you down Let me be a star for weekends  
Do you like your Hollywood?  
As far as I'm concerned, these lesson's been learned  
At least that's what I understood  
Let me be a star for weekends  
Do you like your Hollywood?  
As far as I'm concerned, these lesson's been learned  
At least that's what I understood
